

How Much Do You Know About

Elephant Ensemble Theater's

The Pirate & the Squid?

1. What does a happy pirate say when he or she greets a friend?

2. The sea snail is a distant “cousin” of the squid. TRUE? or FALSE?

3. A starfish can have quite a hearty appetite! Describe the way a starfish eats? Where is its mouth? Does it have teeth?

4. A seahorse's _____ are on the side of its head, and each moves separately!

5. Because of the way its legs are built, a crab can only move:

A. Front to back.

B. Side to side.

C. Up and down.

6. The shark turns out not to be scary because it has no _____.

7. How is the pirate changed by the end of our story?
